## 5. Personal Project

### x5.1 project description

- online, linked & easy to find?
- description?
- clear objectives?

/10

### x5.2 project meeting

- met with instructor to go over the project

/10

### 5.3. Self-Reflection

#### Personal Project

Answer the following on this sheet or in a document linked from your home page.

- did you follow instructions?
- meet deadlines?
- create a plan?
- follow a process or workflow to achieve your objectives?
- share 1 or 2 things you are happy or proud of
- share 1 or 2 things you could improve for next time
- reflect on the quality of your final product?
  - content & communication
  - aesthetics
  - technical

\*\*\*Be sure that your project is linked from your /projects/ page.\*\*\*

Please complete either by printing and filling this out, or with a digital document you link to your projects page:

#5.1 <https://micromediaweb.com/home/1328777/projects/>

#5.2 After meeting a few with the clients from the United Pentecostal Church of St-Laurent I was able to design with more freedom. They trusted me enough to design the poster and a web banner. I eventually met the deadline, however few changes happened and I need to update a few information in the design.

#5.3 I gave the clients 3 options to choose from and worked my way from there. I didn't make a plan, I just did some trials and errors, which worked. At the end, I met the goals and exceeded their expectations.

I happy about the concept in the design, I used a lot of the Pathfinder tool to help me get that "Letters behind the buildings" feel. In the future I could improve on Font choices and information layouts.

My final thoughts on my project:

- Looks great for the theme given ( Testify )
- Need improvement in laying out the basic information, like date and address.
